Care & Cleaning

Spot Cleaning

Normal Care and Cleaning

Remove ordinary dirt and smudges with a mild soap and water solution and a clean, soft cloth or towel. Dry with a soft, lint-free cloth or towel.

Disinfection

Upholstery can be disinfected with a variety of hospital grade disinfectants with little to no discoloring or damage to the finish. Disinfection does not replace the need for regular care and maintenance.

Special Cleaning Problems

The dyes and pigments in some staining agents have the ability to create a permanent stain if not treated properly. To clean difficult stains, locate the staining agent in the lists below and follow the corresponding recommended cleaning method. For best results, treat all stains immediately.

Cleaning Tips

To determine the method and type of cleaners, the source of the stain should be identified.

Staining Agents:

Baby oil, ketchup, chocolate, motor oil, olive oil, grape juice, coffee/tea, urine, blood. Use method 1. Eye shadow, crayon, grease, tobacco tar, mustard, lipstick. Use method 1. If stain persist use method 2. Permanent felt tip marker, ballpoint pen and spray paint. Use method 2.

Method 1: Use an all purpose cleaner, like Formula 409, with a soft cloth or damp sponge. Rinse area with fresh water then dry with a clean, lint free cloth.

Method 2: Use a solvent-type cleaner, such as rubbing alcohol (isopropyl alcohol). Rinse cleaned area with fresh water then dry with a clean, lint-free cloth. If the stain persists after six rubs, the stain has set and probably cannot be removed. Rinse cleaned area with fresh water, then dry with a clean, lint-free cloth.

CLEANING INFORMATION IS OFFERED FOR GENERAL GUIDANCE ONLY AND IS NOT A GUARANTEE. THE USE OF CERTAIN CLEANING AGENTS MAY BE HARMFUL TO THE APPEARANCE AND LIFESPAN OF THE PRODUCT. UNITED FABRICS ASSUMES NO RESPONSIBILITY FOR DAMAGE TO A PRODUCT RESULTING FROM LACK OF CLEANING, IMPROPER CLEANING, OR THE MISAPPLI CATION OF CLEANING AGENTS. CERTAIN CLOTHING AND ACCESSORY DYES MAY MIGRATE TO MATERIALS AND CAUSE PERMANENT DAMAGE OR DISCOLORATION.
