

Care & Cleaning

Writer's Block™ ink resistant technology offers a unique repel & release stain inhibiting system. This dual action topcoat prevents ink and other stains from setting into the material and allows for easy cleaning, even after long periods of time. With the ability to withstand high dilutions of bleach or isopropyl alcohol any potential residue that may exist may be cleaned off easily. Prompt cleaning is always recommended. Please follow the cleaning guide below listed by type of stain.

Spot Cleaning

REGULAR CLEANING (Dirt, Dust, Grime)

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

FOOD STAINS/OILS (Mustard, Ketchup, Chocolate, Coffee, Tea, Salad Dressing)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry. For stubborn stains, spot clean with a 70% dilution of isopropyl alcohol and water, then wipe surface. Rinse with fresh water and wipe dry.

HEALTHCARE/DISINFECTION (Blood, Urine & Betadine)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. May also be disinfected with a 20% dilution of bleach.

INK MARKS/GRAFFITI (Ballpoint Pen & Permanent Marker)

Rub the affected area with a soft dry cloth with firm pressure. If some stain is still present, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and dry.

DENIM DYE TRANSFER (Blue Jeans)

Writer's Block materials are designed to withstand the transfer of most types of indigo dye. In cases where faint denim dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.
