ROADTRIP: *Cape Cod*

Filled with quaint patterns in peaceful colorways, the Cape Cod Collection is designed to be mixed and matched, lending itself to a bespoke “lived-in” aesthetic. The motifs in this collection include traditional florals and unique trellis-inspired diamonds alongside more contemporary interpretations, layering expressive hydrangea illustrations with scalloped designs.

DESIGNER SPOTLIGHT

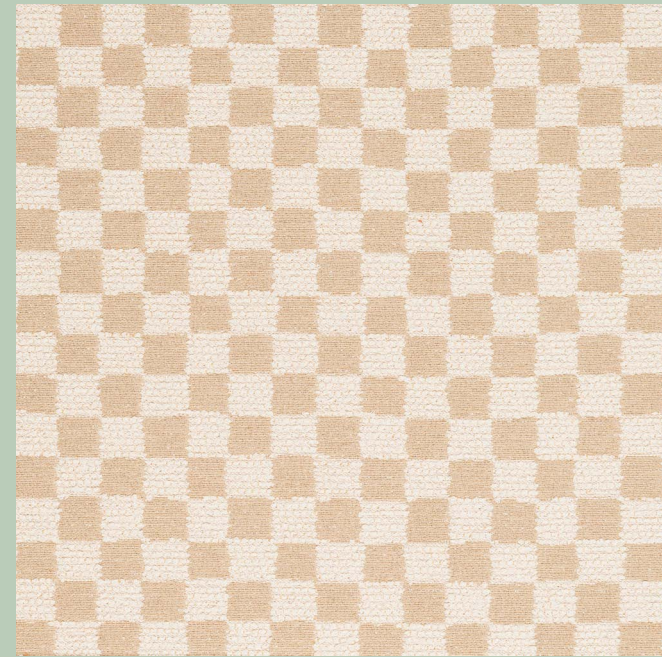

We love to celebrate our design team here at United Fabrics. Our Design & Sampling Coordinator, Kait Ruder, drew inspiration from travels to Cape Cod and the beautiful landscape. In the featured pattern Trellis, Kait layered her botanical hydrangea-inspired artwork with a playful scalloped background, blending New England charm with a refined modern style.

PROJECT FEATURE

PROJECT: UNITI MONTROSE
HOUSTON, TX

At Uniti Montrose, an apartment community featuring fully furnished apartments and community spaces, they designed with intention, curating spaces that reflect how residents really live, work, and unwind. Some of these designs included a clubhouse kitchen that brings neighbors together over good food and better conversation, plus a cozy library nook for quiet moments and page-turning escapes.
