REDUCED ENVIRONMENTAL IMPACT

This product does not pose any exposure risks associated with the substances listed in California Proposition 65
No added flame retardant chemicals - AB2998 Compliant
No added Anti-Bacterial / Anti-Microbial Chemicals
Lead Free

CARE & CLEANING

Prompt cleaning is always recommended. Cleaning steps are listed by type of stain.

REGULAR CLEANING AND MAINTENANCE

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

FOOD STAINS / OILS

Wipe affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry.

DIFFICULT STAINS / DISINFECTION

Clean the soiled area with a solution of: 1 cup of bleach and 1/4 cup of soap to 1 gallon of warm water. Saturate the affected area using the cleaning solution. Use a sponge, clean towel, or soft bristle brush to loosen the stain. It is important to rinse the cleaned area with fresh water after applying the bleach solution. Let the fabric air dry. Note: Sunbrella Contract fabrics may be cleaned with Quat-based, phenolic-based, and sodium hypochlorite (bleach) based cleaners with a pH less than 12.

DEEP CLEANING

Deep cleaning for large areas or set stains is best accomplished through upholstery wet extraction, being careful to avoid the excess heat of steam cleaning. Consult a professional cleaning service if this expertise is not available.

SPECIFIC STAINS

Consult the Sunbrella Contract Fabric Stain Chart for suggested cleaning agents for specific stains. Always rinse thoroughly to remove the cleaning agent once the stain is removed. Rinse with fresh water and wipe dry.
